# Use-Case Specification: Sign Up

## 1. Use-Case Name

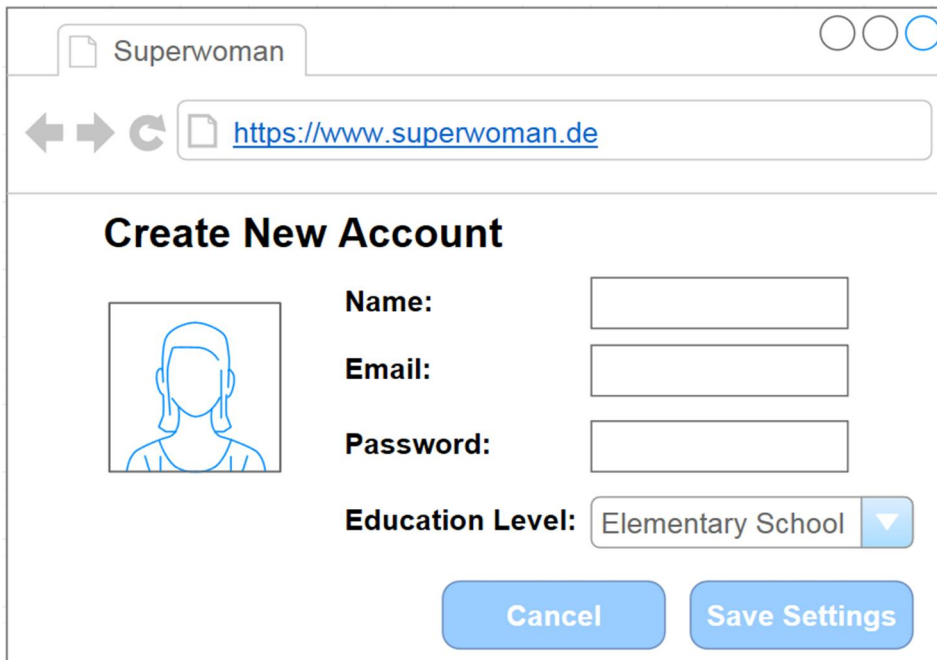

### 1.1 Brief Description

The visitor has to create a new account to play the game.

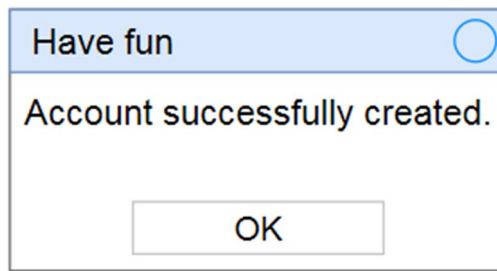

### 1.2 Mockup

A vertical form mockup for a sign-in/sign-up interface. At the top is the text "Sign In" followed by a horizontal line. Below this are two input fields: "User Name:" with the placeholder text "username" and "Password:" with placeholder text represented by eight asterisks. A blue button labeled "SIGN IN" is positioned below the password field. Underneath the button is a blue link labeled "Forgot Password?". Another horizontal line follows, and then the text "New User" is displayed. At the bottom is a blue button labeled "SIGN UP".

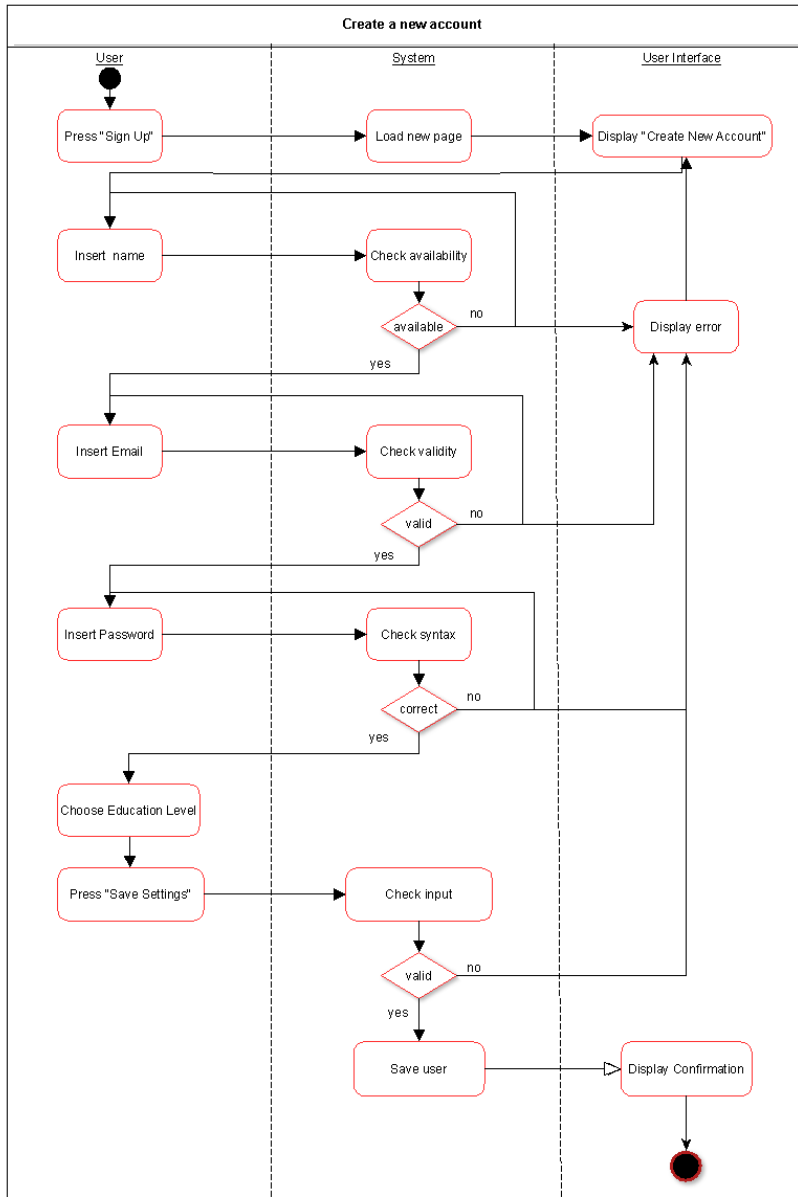

A browser window mockup titled "Superwoman" with standard window controls. The address bar shows the URL "https://www.superwoman.de". The main content area is titled "Create New Account". On the left is a placeholder icon for a user profile. To the right of the icon are four input fields: "Name:", "Email:", "Password:", and "Education Level:". The "Education Level:" field is a dropdown menu currently showing "Elementary School". At the bottom of the form are two blue buttons: "Cancel" and "Save Settings".

## 2. Flow of Events

### 2.1 Basic Flow

## 2.2 Narrative

Feature: SignUp

As a visitor

I want to create a new account with my name, email address, a password and an education level

Scenario: SignUp successful

Given Visitor is on SignUp page

When Visitor provides username <username>, email <email>, password <password>

And Chooses education level

Then Visitor created an account

And Visitor should be shown a success message

Scenario: SignUp failed

Given Visitor is on SignUp page

When Account with the given email already exists

Then Visitor did not create an account

And Visitor should be shown an error message

Scenario: SignUp failed

Given Visitor is on SignUp page

When Visitor did not fill in all required elements

Then Visitor did not create an account

And Visitor should be shown an error message
